ADDED REASON FOR **DEMOCRATIC ACTIVITY**

Important to Missouri to Hold Party Strength in the House of Representatives.

NOW HAS STRONG DELEGATION.

It Is Practically Conceded That the Republicans Will Lose Control of the Lower House of Congress.

Rarely has a Republican from the State and the state, in maters of parton-mon prominence in either house. The high case, would be cared for to the fullest dewon prominence in enter more. The high case, would be called for to the fillich destinating of Missouri never was maintained agree. This result will be assured only by better than it is by the Democrats of the present House. Evidence of this is teen in Speaker Henderson's appointments to committee. He placed the Missouri Democrats on much more important work than craise on much more important work than MAVAL DOAT DAINTED OF THE STATE OF THE ST

Bean a chairmanship, but it was of a minor committee whose functions are of il-tie importance, and this was a reward for campaign work among the German voters and

paign work among the German.

Into the recognition of special fitness.

This is a high testimordial by Speaker
Henderson to the character of Missouri's
Possocratic representatives. General Henderson bad served with them on the floor
and know their qualities. These Democratical forms who captured the British shoop-ofwar Margaretta off Machine, Me., on May brothers who captured the lightish along and knew their qualities. These Democratic committee andraments came without solidization. The inhority mambers were procluded from asking favors while all the Western Republicans who helped to elect.

Western Republicans who helped to elect.

turn his bemocratic Esposemiativa. There its every indication that the House will go Jems-ratio. This result is predicted by the managers of the Republican Congressional. Camputan Committee, when talking con-microtially to their friends. This would insure the Older Democratic members chair-manufacter. The Democrats from Missouri have been especially well placed on committees and following custom they will be premated to chairmanships of the same committees. Thus the Sinte would gain a note commutating position in Congress.
It now has such a position in the Senara due to the long and able service of Se-Cuckreff and Vest. What this is worth to the State was shown in the last session when Senators Vest and Cockreff, because of their positions on leading Senate com-mittees, were able to secure an appro-priation of \$5,000,000 for the St. Louis World's Pair. Had Senator Conkrell Bot been yielded to him for one of the author of the Appropriations Committee and Schalor Vest of the Committee and Schalor Vest of the Committee on Expositions, this large appropriation probably would have falled in the Senate House but for the work done by the Min sour! Democrats. The work of the latter could not have been performed, but for the prominents of their committee places. With a Democratic House duly proof of this advantage would be had to the great benefit of the State. The election of a Reoblican would mean that the district represented by him would have a man at the foot of the least important of the committees. That is the custom of assigning new men

In the East, especially in New England the custom of re-riecting useful members has grown steadily. The result generally is held to be of advantage to the district and the State. It was this system which finally gave stained in one Congress the Speakership, the Chairmanning of Ways and Means, of Natal and Public Affairs and Public Buildings and Grounds, and which gave Bitnols eight chalrmanships in the present House, including Appropriations

and Foreign Affairs.

The Democrats of Missouri have won

Prior to the Special War, and in all the interment measures growing out of it, Mis-zouri's volve has been heard and beside. Time of Service Adds to Influence.

If the Demograts could not control being the minority, at least they modified the action of Coupress, as was done by Senator Cockrell when he put a limit to the time and purpose for which the army of Recognization in the emisted by this alministration. In the grantest exchanges growing out of the Spanish War, when the emislas of the War Department tried to be a perma-nent increase of the army, in order to make better chances for promotion, and powerful topublican elements wanted it for other purposes, Semior Cockrell metided his Re-publican associates on the Military Com-mittee that the Democrats would accept a temporary army increme for an existing margancy, and the puriod of service must

"And if this is not satisfactory," said the Missouri leader, "you may as well make your arrangements to reasin in session in-The Republicans decided to accept Senator

Cockrell's terms.

This illustrates the influence of a tried This illustrates the influence of a trief inwinaker, even when his party is in the influence to enjoyed by the Missouri Democrats of the House, the power would be mustiplied many times. Their constituents would feel great interest in the result of the spreaching congressional elections in Missouri. For some years past it has been the control of a leading committee. Missouri. For some years past it has been the chairmanually of a leading committee. a common saying about the liques that In the present liques, as stated, Dinois Missouri has had the strongest of all the has eight chairmanuallys. In the next House State delegations. This has been due to the character and ability of the lease- person. That would gut Missouri where the interests of the State, in matters of patron-
